

Record Your Voice

This tutorial explains how to record your voice.

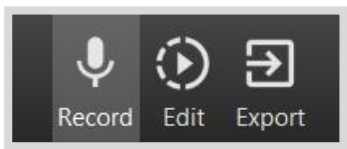

1. To make sure that a working microphone is connected to your computer, open the Options window from the top toolbar.

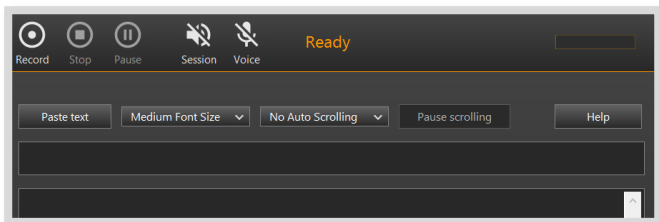

2. Select the correct recording device.

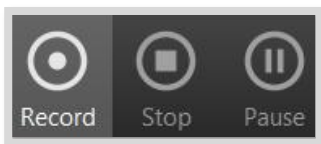

3. Click the "Record" button in the top toolbar.

4. The sound recorder window opens.

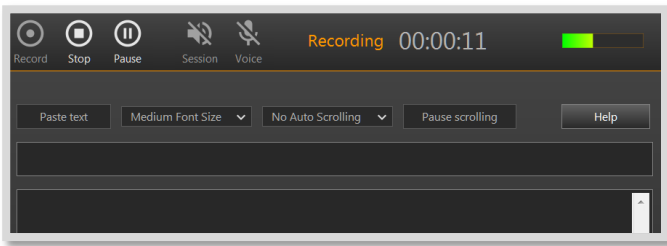

5. Click the "Record" button on the left to start recording.

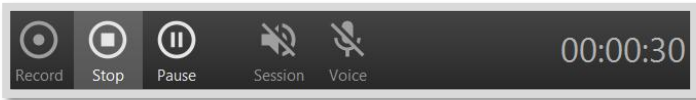

6. SHARM Studio automatically counts down three seconds to allow you to prepare for the recording.

7. Speak into the microphone to record your voice.

The recording level is displayed in the recording meter.

8. To stop the recording, click the "Stop" button.

The recorded file is automatically saved on your hard drive.
