

Export the Session to a Sound File

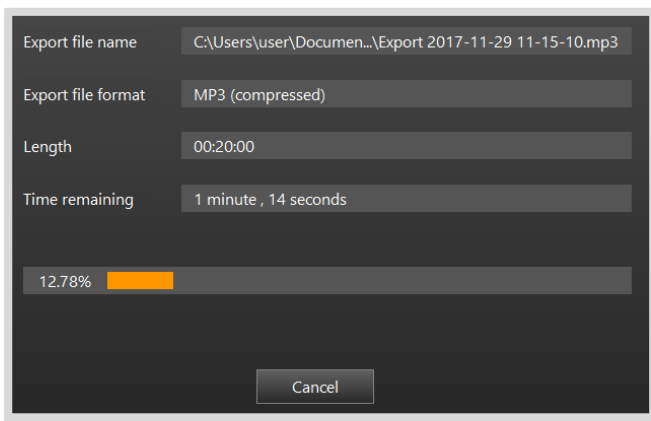

This tutorial explains how to export a session to a sound file.

1. Click the “Export Session” button in the toolbar.

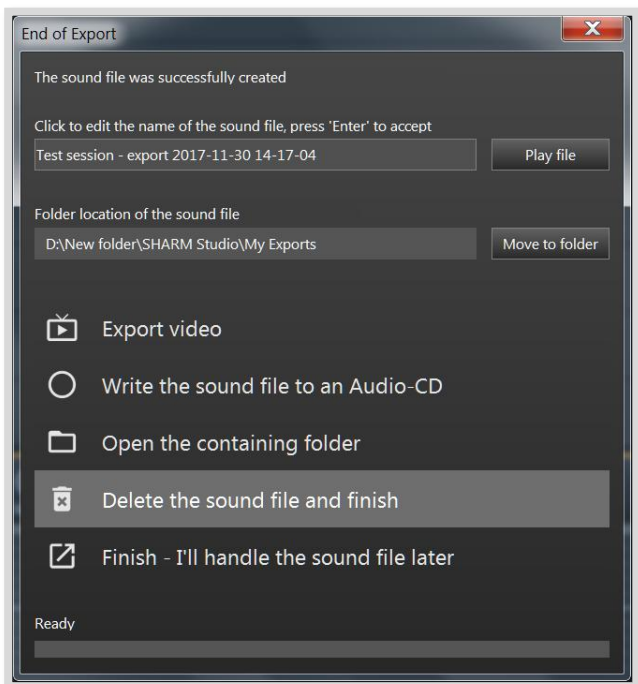

2. The export process begins immediately.

Wait until the export finishes.

3. The “End of Export” window opens when the process is complete.

The exported file is automatically saved on your hard drive.

You can change the name of the sound file to a more descriptive choice.
